ABOUT US

Kutch digital is a Mumbai based company commenced operations at Bangalore in 2003 as a family owned commercial printing business. After playing a leading role as a commercial printer we saw an opportunit for expansion in quality & fast turnaround printing. Today, we are the single source for all your printin needs. Our sprawling 4000 sq.ft. digital workshop is equipped with world's most reliable printers for both indoor & outdoor prints. We have printing capacity of 8,00,000 sq.ft.per month on varied media and for that we carry adequate stock of all inputs. Kutch digital zone is a trusted online printing company commited to providing a high quality, printing experience at affordable prices.

OUR SERVICES

We offer high quality inkjet, Flex & SAV prints. These prints can either be used directly or mountedon foam sheets or any other substrates or can be fixed in our portable displays to maximise brand visibilty. With advanced printing technology and wide production space our turnaround time is minimal with maximum output. Every output is then personally checked by our quality controller and then finally dispatched for delivery.

FEATURES

- They come in different materials like metal, acrylic.
- They are available in assorted sizes and heights in pedestal, rotating, or vertical styles.
- They are inexpensive, portable and versatile. These stands are among the most cost-effective and efficient promotional tools.

Jumbo Pop Up & Pop up COUNTER
KDZ.49

The pop up stand consists of a frame which literally expands up to create a skeleton frame. This then holds the graphic or fabric panels in place. Once the popup stand is assembled, with the bars in place, you can hang the panels. Usually these panels are printed to create what looks like a continuous seamless graphic display. Alternatively, fabric panels can be used to create a carpeted wall onto which you can fix your own printed material using velcro. Either way, the panels are fitted to the back of the stand to create a full all round display.
